ESC/POS® JAVAPOS™

The TM-U200 is an ideal low cost printer for point-of-sale applications.

The modular user-friendly design, graphics capability, and 3.5 lines per second print speed offer reliable high performance in a compact, lightweight design.

The TM-U200 features modular interface boards that enable users to select from bi-directional parallel, RS-232C, RS-422 and RS-485 interfaces simply by ordering a new module.

Other features include a paper end detector that automatically alerts the user when the printer is out of paper, a manual cutter and the ability to print one original plus two copies.
